

Kapas

Kapas

About 6 km off the coast of Marang is Pulau Kapas, an island renowned for its clear waters, sandy white beaches and swaying palms. Relatively isolated from the hustle and bustle of the mainland, this island is the perfect getaway for those looking for some blissful relaxation. Making it a must-visit destination is the incredible variety of hard and soft corals, seashells, fish and turtles.

The laidback atmosphere gives perfect excuse to do nothing. Still, if you are feeling restless, there are plenty of activities to keep you occupied. Take your pick: diving, swimming, snorkelling, windsurfing, and kayaking, boating and even fishing!
