

Mulu

Mulu Caves National Park is home to one of the longest networks of caves in the world. Here lies the world's largest underground chamber, the Sarawak Chamber, capable of accommodating forty Boeing 747 airplanes.

Also here is the world's biggest cave passage, Deer Cave, which can fit five cathedrals with the size of Saint Paul's in London. Another key attraction is the Clear Water Cave, the longest cave in Southeast Asia.

Here, be amazed by some of the best examples of tropical limestone weathering in the world, including enormous razor-sharp pinnacles, deep-cut canyons, and awesome caverns that are home to millions of bats and cave swiftlets that swarm out into the jungle in great clouds every evening at dusk!

4 DAYS / 3 NIGHTS' MULU EXPERIENCE
