

Sibu

In the heart of Asia lies some of the most beautiful beaches in the world and Pulau Sibu forms one of these truly inspiring beaches. With infinite carpets of sparkling white sand that stretches for miles and miles, and crystal clear waters around exotic tropical islands, Palau Sibu is ideally a perfect hideaway for most.

With the surrounding waters containing fascinating coral reefs teeming with colorful marine life and shipwrecks off its coast, it is definitely a paradise for divers and snorkellers. Visitors can either engage in fishing activities, or go for a hike through the jungle leading to unspoilt mangrove swamps, or visit the kelong where anchovies are caught. Alternatively, head for the kampong to get a first-hand look at how coconuts are smoked to make copra.
